INDIGENOUS STEAM EDUCATION A COMMUNITY CONVERSATION

**WHAT DOES IT MEAN
TO BE IN STEAM?**

Join our conversation and community building around Native Science, Technology, Engineering, Art, Mathematics (Native STEAM) in NM. What does it mean to be in STEAM? How can it be inclusive? What does this mean for community building around our overlapping roles such as students, educators, professionals, parents, community members? We are hoping this conversation will lead to networking and collective goal setting to reimagine the future of STEAM in Native Communities.

This event is convened by NM CIRCLES, part of the CIRCLES Alliance, an NSF-funded initiative to increase the engagement, involvement, and success of Native and Alaska Native students in STEM.
